

PRO • VERSION 1.5.3

TradePace Visual User Guide

A premium, screenshot-led walkthrough of the actual TradePace PRO v1.5.3 package. Every supplied Pro screenshot is included and explained.

\$29.99 LIFETIME

Plan it. Track it. Master it.

Guide at a glance

Every screen supplied for this tier is included below. Each screen is followed by practical instructions, what to check, and the next step so the guide teaches the workflow rather than simply displaying screenshots.

01	Welcome / Dashboard
02	PRO Dashboard — expanded view
03	PRO Dashboard — Pro view
04	New Trade — entry
05	Risk-to-Reward
06	Trading Plan — create / edit
07	Strategy
08	Unlimited Accounts
09	Unlimited Activities
10	Full Calendar
11	Psychology — overview
12	Full Psychology — history / metrics
13	Full Psychology — detailed view
14	Psychology — history beyond Free month
15	Analytics
16	Weekly Review
17	Screenshots / evidence
18	Import / Export
19	Settings
20	PRO plan / pricing

01 • WELCOME / DASHBOARD

Welcome / Dashboard

The supplied Pro screenshots show the dashboard with expanded performance information and Pro navigation.

Welcome Home.PNG

WHAT THIS SCREEN DOES

Start here to understand the Pro workspace.

HOW TO USE IT

- 01** Open the dashboard after installing the Pro package.
- 02** Use the left navigation to move between Dashboard, Journal, Accounts, Activity, Psychology, Weekly Review, Calendar, Trading Plan and Settings.
- 03** Review the summary metrics first, then open the section that needs action.
- 04** Use the dashboard as a review hub rather than trying to edit every record from one screen.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

NEXT STEP

Next: create or review the Trading Plan.

02 • PRO DASHBOARD — EXPANDED VIEW

PRO Dashboard — expanded view

This supplied screenshot shows the expanded Pro dashboard view and its performance charting.

Full dashboard.PNG

WHAT THIS SCREEN DOES

Use the full dashboard to review more of your recorded performance.

HOW TO USE IT

- 01 Choose the account/time filters visible on the dashboard when you need a narrower view.
- 02 Review the summary cards before reading the chart.
- 03 Use the chart as a trend view, then drill into Journal or Analytics for deeper analysis.
- 04 Keep the filters consistent when comparing one review period with another.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

NEXT STEP

PRO removes the Free account/trade limits.

03 • PRO DASHBOARD — PRO VIEW

PRO Dashboard — Pro view

This supplied Pro screenshot is the dashboard presentation used in the Pro package.

PRO Dashboard.PNG

WHAT THIS SCREEN DOES

The Pro build preserves the familiar workflow while exposing the expanded tier.

HOW TO USE IT

- 01** Start from this screen when you want a quick operational overview.
- 02** Use the navigation to open the specific record or review module you need.
- 03** When a metric looks unusual, trace it back to the Journal or account activity rather than changing the summary itself.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

NEXT STEP

Next: record a trade.

04 • NEW TRADE — ENTRY

New Trade — entry

The supplied Pro New Trade screen shows the trade-entry form used to create a new journal record.

New trade entry screen.PNG

WHAT THIS SCREEN DOES

Capture a complete trade record.

HOW TO USE IT

- 01** Open Journal and choose New Trade.
- 02** Complete the visible trade fields, including account, strategy and the trade details required by the form.
- 03** Review the planned risk/reward information before saving.
- 04** Save the trade and verify it appears in the Journal.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

NEXT STEP

PRO removes the Free 50-new-trades-per-month limit.

05 • RISK-TO-REWARD

Risk-to-Reward

The supplied screenshot focuses on the risk-to-reward portion of the New Trade form.

The screenshot shows the 'New Trade' modal in TradePace. The 'Planned R:R (PRE-TRADE)' section is highlighted, showing a calculated 'Planned R:R' of 9.60R and a 'Plan Minimum' of 1.50R. The 'Risk %' is set to 1, and the 'Strategy' is 'Main forex'. The 'Timezone' is 'Africa/Johannesburg' and the 'Session Override' is 'Auto-detect'. The 'Save Trade' button is visible at the bottom right of the modal.

risk to reward section.PNG

WHAT THIS SCREEN DOES

Use the risk/reward section to validate the planned trade.

HOW TO USE IT

- 01** Enter or review the values that determine the planned risk and reward.
- 02** Check that Stop Loss and Take Profit reflect the intended setup.
- 03** Review the displayed R:R before saving the trade.
- 04** If the values are not what you intended, correct the trade inputs before creating the record.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

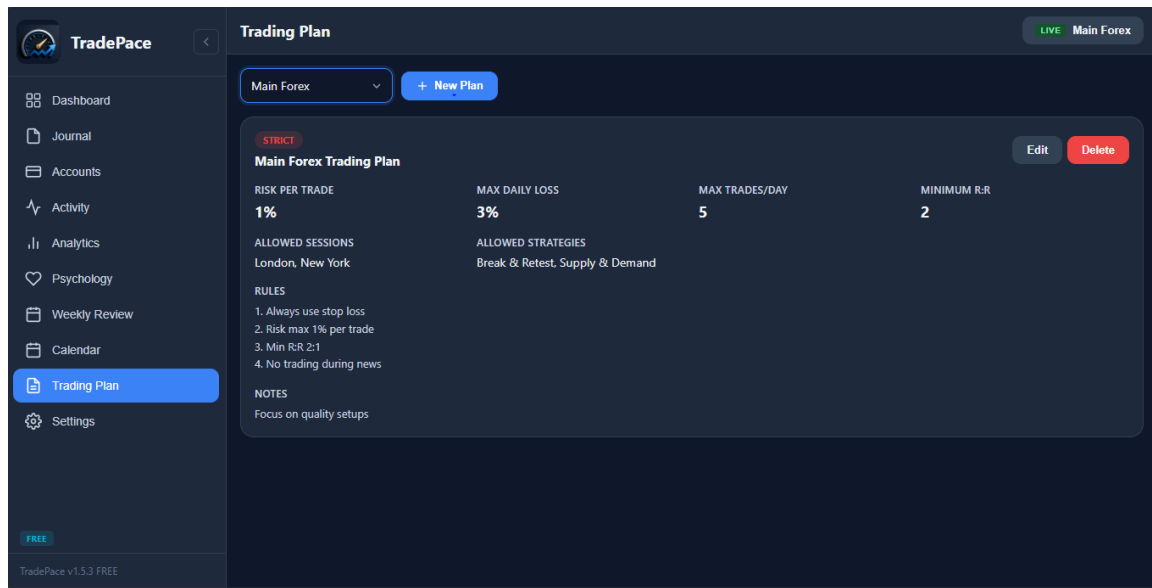

NEXT STEP

Use this as a pre-save check, not as a guarantee of trade outcome.

06 • TRADING PLAN — CREATE / EDIT

Trading Plan — create / edit

The supplied Pro screen shows the stored Trading Plan and its create/edit controls.

Show where the user creates edits their plan.PNG

WHAT THIS SCREEN DOES

Keep the plan aligned with the way you actually trade.

HOW TO USE IT

- 01 Open Trading Plan.
- 02 Review the current plan before editing.
- 03 Use the create/edit controls shown in the interface to maintain the plan.
- 04 Save changes and return to the overview to confirm the updated plan is displayed.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

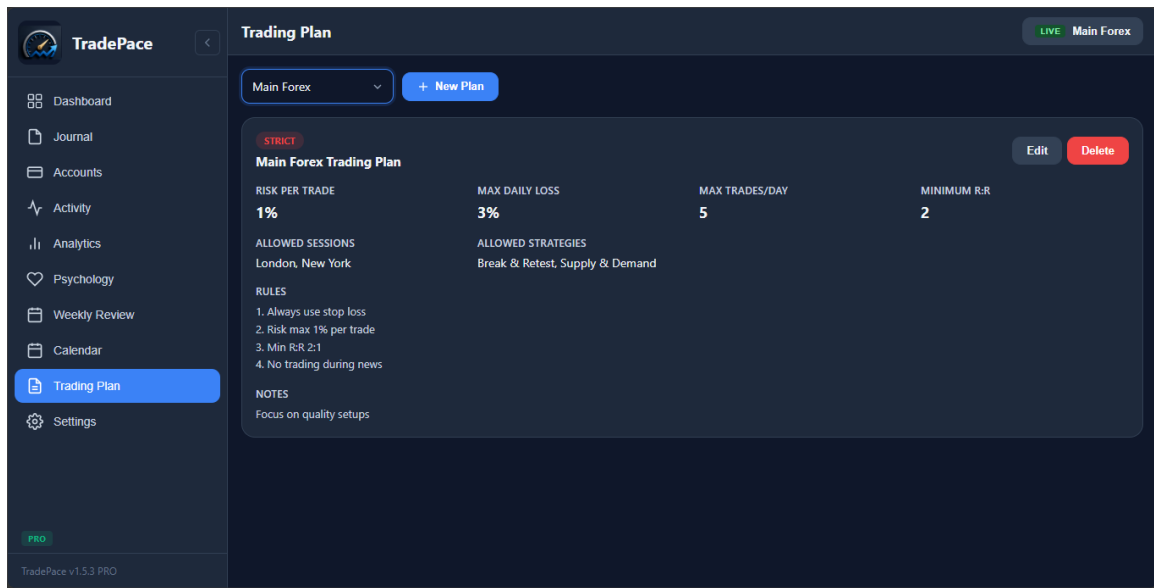

NEXT STEP

PRO supports unlimited strategies; keep the plan itself concise and actionable.

07 • STRATEGY

Strategy

The supplied Pro strategy screen shows a stored strategy in the Trading Plan area.

strategy1.PNG

WHAT THIS SCREEN DOES

Organize trades by setup or method.

HOW TO USE IT

- 01** Open the strategy you want to inspect.
- 02** Review its stored rules/details before changing them.
- 03** Edit only when the definition of the strategy changes.
- 04** Use the same strategy consistently when recording matching trades so later Analytics remains useful.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

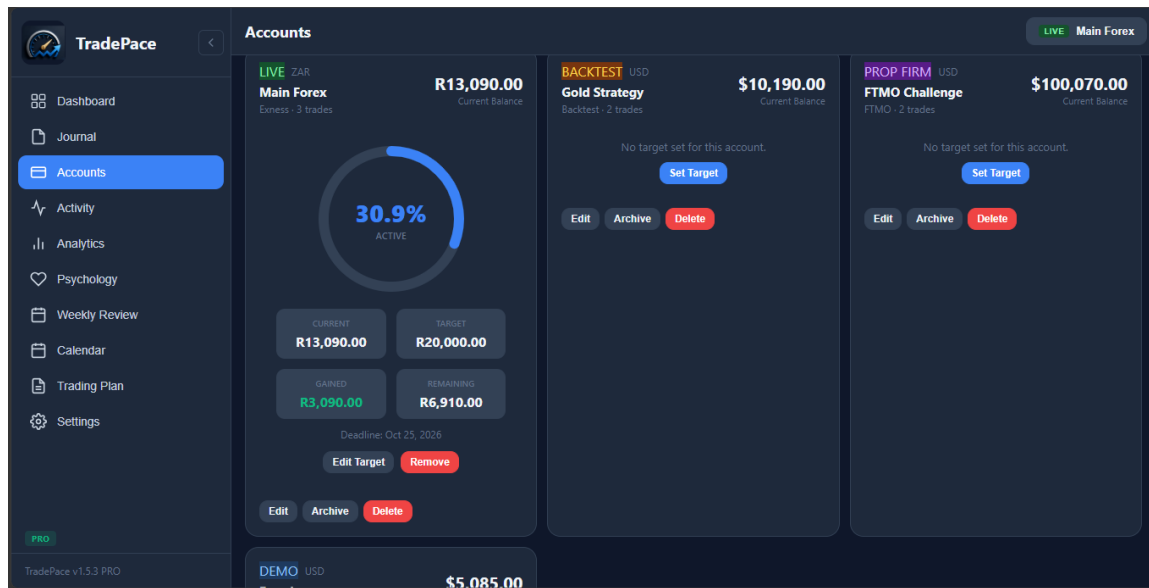

NEXT STEP

PRO removes the Free three-strategy limit.

08 • UNLIMITED ACCOUNTS

Unlimited Accounts

The supplied screenshot shows multiple account cards in the Accounts section.

Unlimited Accounts.PNG

WHAT THIS SCREEN DOES

Keep multiple trading accounts in one Pro workspace.

HOW TO USE IT

- 01 Open Accounts.
- 02 Review the account cards and their current summaries.
- 03 Select the account you need before recording or reviewing account-specific information.
- 04 Use clear account names so reports and reviews remain understandable.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

NEXT STEP

PRO supports unlimited active accounts.

09 • UNLIMITED ACTIVITIES

Unlimited Activities

The supplied Pro Activity screen shows account activity records and filtering controls.

Activity							LIVE Main Forex
Select Account	All Types	ACTIVITIES: UNLIMITED	+ New Transaction				
DATE	TYPE	AMOUNT	CURRENCY	DESCRIPTION	REFERENCE	ACTIONS	
Aug 10, 10:22 PM	FEE	100.00	ZAR	Platform fee	FEE001	Edit	Del
Aug 5, 10:22 PM	WITHDRAWAL	2,000.00	ZAR	Profit withdrawal	WTH001	Edit	Del
Jul 16, 10:22 PM	DEPOSIT	5,000.00	ZAR	Initial deposit	DEP001	Edit	Del

Unlimited Activities.PNG

WHAT THIS SCREEN DOES

Track account-level activity without the Free 10-item ceiling.

HOW TO USE IT

- 01 Open Activity.
- 02 Use the account and type filters to focus the list.
- 03 Review existing activity entries before adding a new one.
- 04 Use the new-activity action shown in the interface to add the next record.
- 05 Keep activity descriptions consistent so the list remains useful as it grows.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

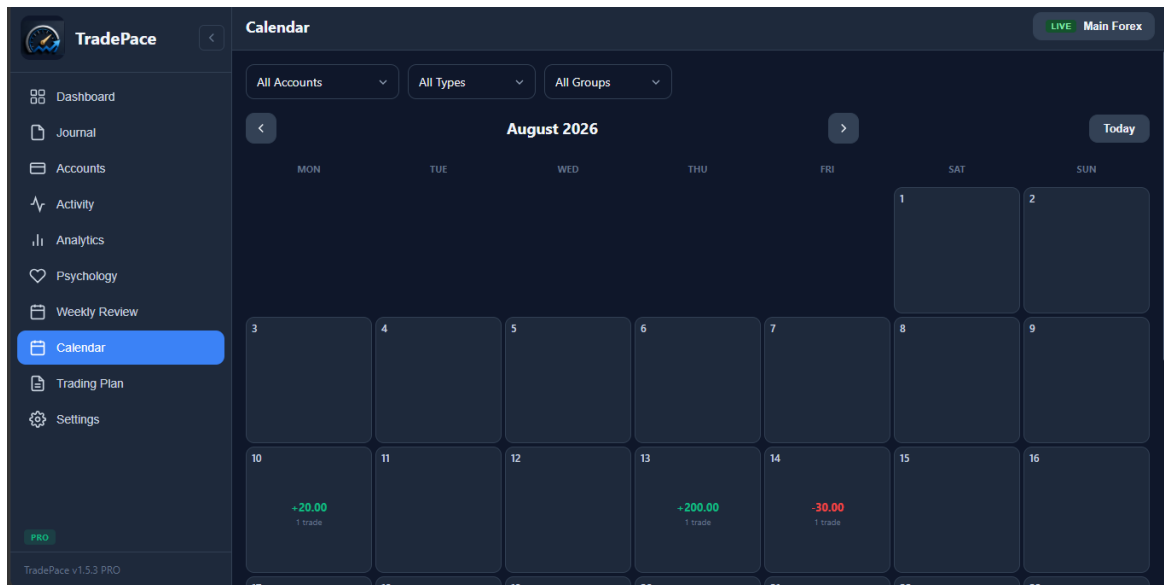

NEXT STEP

PRO supports unlimited activities.

10 • FULL CALENDAR

Full Calendar

The supplied Pro Calendar screenshot demonstrates the expanded calendar view that goes beyond the Free current-month scope.

Full Calendar.PNG

WHAT THIS SCREEN DOES

Review the complete calendar history.

HOW TO USE IT

- 01** Open Calendar.
- 02** Use the calendar controls shown in the interface to navigate the history you need.
- 03** Select a date when you need to inspect the day's context.
- 04** Use Calendar together with Journal and Psychology when reviewing a period.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

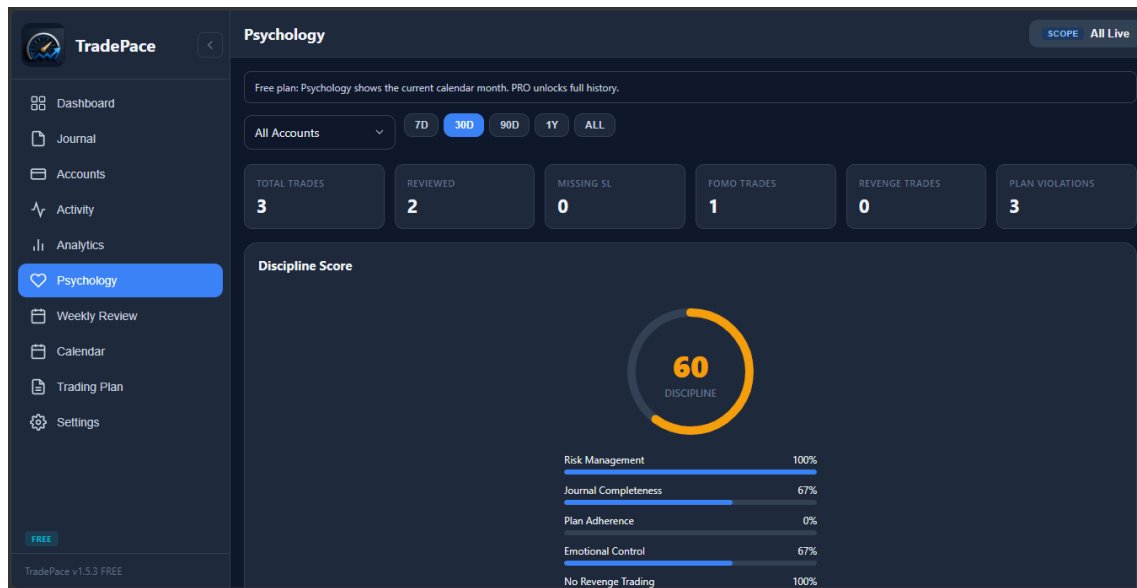

NEXT STEP

PRO unlocks full calendar history and navigation.

11 • PSYCHOLOGY — OVERVIEW

Psychology — overview

The supplied Pro Psychology screens show scores, summaries and psychological metrics.

Psychology screen.PNG

WHAT THIS SCREEN DOES

Turn trading psychology into something you can review systematically.

HOW TO USE IT

- 01** Open Psychology.
- 02** Choose the account/time context shown by the controls when you need a focused review.
- 03** Review the summary scores first.
- 04** Read the detailed indicators below the summary to identify recurring behaviour or execution patterns.
- 05** Use the findings to improve the next Trading Plan/review cycle rather than editing historical scores without a reason.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

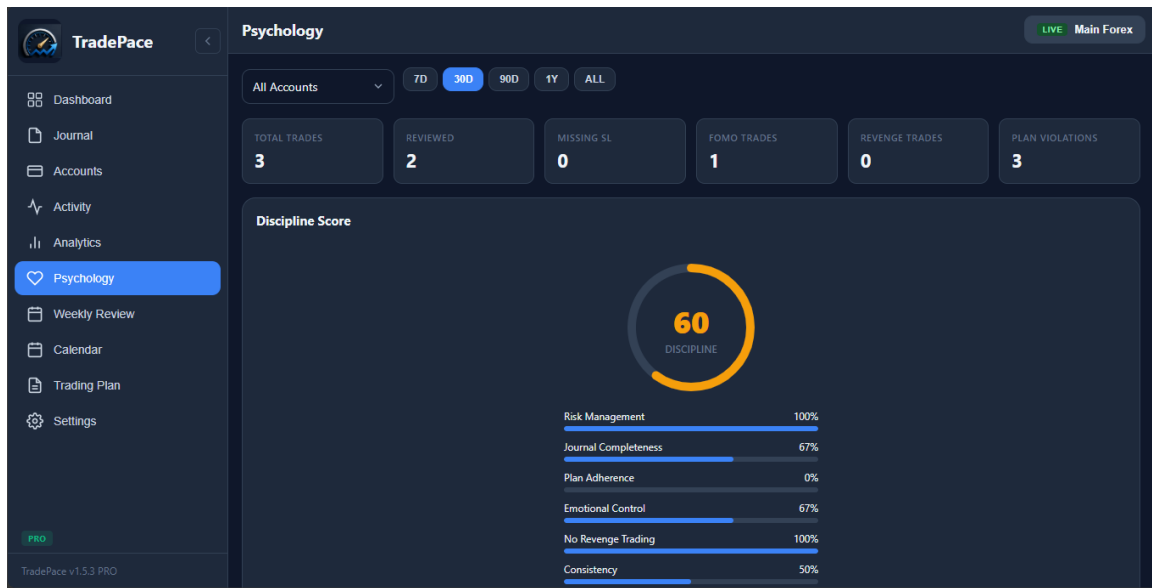

NEXT STEP

PRO includes full psychology history.

12 • FULL PSYCHOLOGY — HISTORY / METRICS

Full Psychology — history / metrics

This supplied screen shows the detailed Psychology history/metric presentation.

Full Psychology.PNG

WHAT THIS SCREEN DOES

Use the extended psychology view to study patterns over time.

HOW TO USE IT

- 01** Review the historical indicators and the period controls shown on the page.
- 02** Compare recurring strengths and weaknesses instead of focusing on one isolated result.
- 03** Use the historical view during Weekly Review to connect behaviour with trade outcomes.
- 04** Record changes to your process in the Trading Plan when the pattern is persistent.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

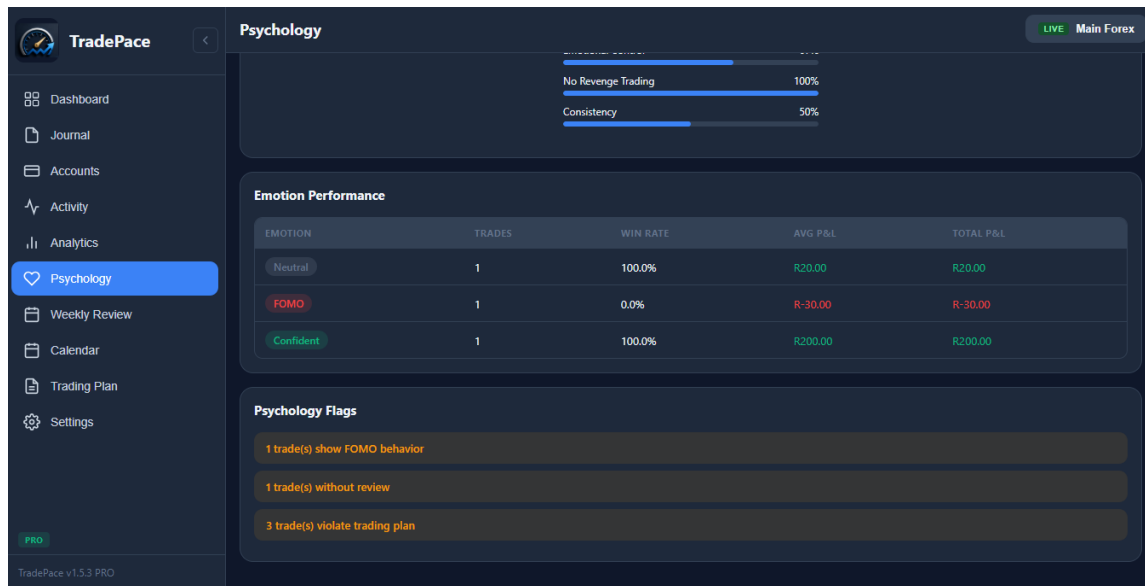

NEXT STEP

Full Psychology history is a Pro feature.

13 • FULL PSYCHOLOGY — DETAILED VIEW

Full Psychology — detailed view

The second detailed Psychology screenshot shows the expanded metrics and performance information.

Full Psychology2.PNG

WHAT THIS SCREEN DOES

Inspect the detailed psychological performance breakdown.

HOW TO USE IT

- 01 Read the summary cards before the detailed breakdown.
- 02 Review the psychological dimensions shown in the report.
- 03 Use the detailed view to identify patterns that deserve attention in your next review.
- 04 Keep the review focused on process and execution rather than treating the score as a prediction.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

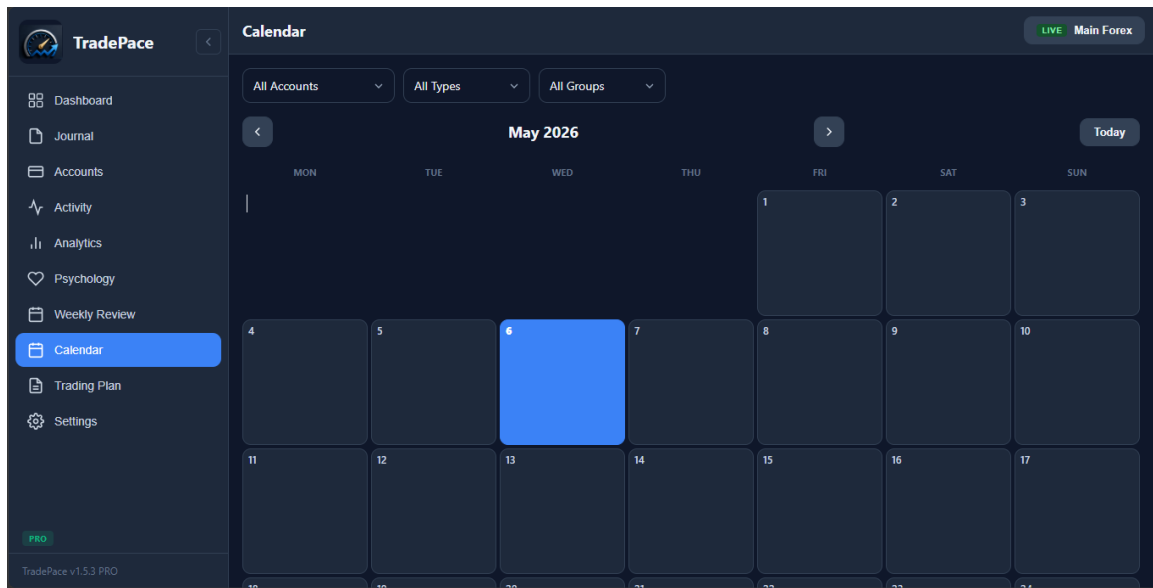

NEXT STEP

Use this page alongside the Journal and Weekly Review.

14 • PSYCHOLOGY — HISTORY BEYOND FREE MONTH

Psychology — history beyond Free month

This supplied screenshot is specifically identified as history beyond the Free current-month limitation.

history beyond the Free current-month limitation.PNG

WHAT THIS SCREEN DOES

Go beyond the Free current-month boundary.

HOW TO USE IT

- 01** Open Psychology and use the available history controls to move beyond the current month.
- 02** Select the period you want to study.
- 03** Compare the historical pattern with more recent performance.
- 04** Use the result to decide whether your Trading Plan or execution process needs adjustment.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

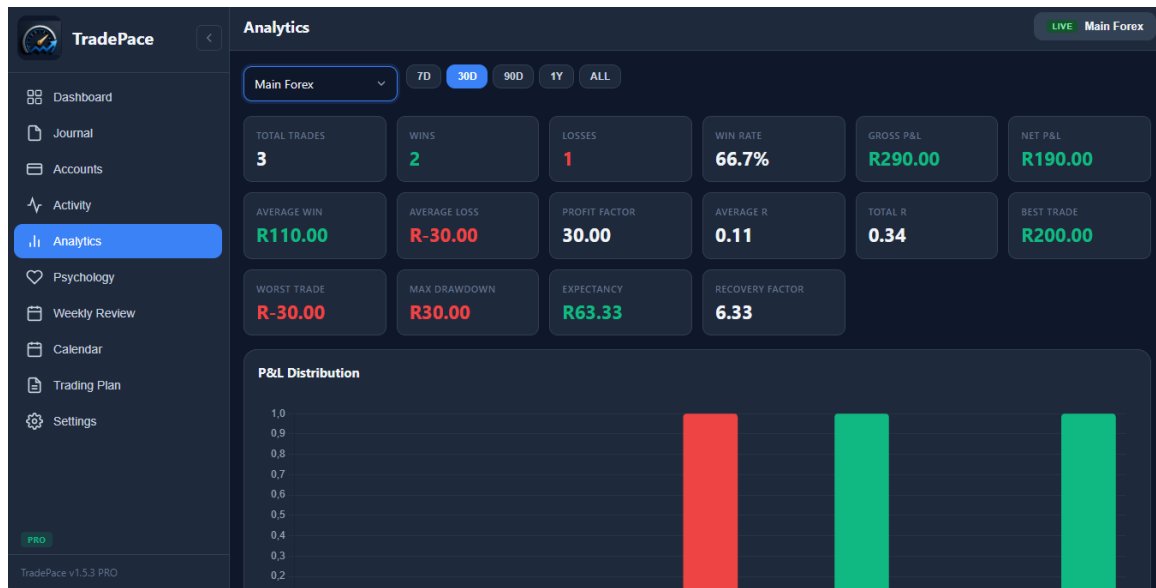

NEXT STEP

This is one of the clearest Pro-only differences from Free.

15 • ANALYTICS

Analytics

The supplied Pro Analytics screenshot shows the Analytics workspace with summary metrics and charts.

Pro Analytics.PNG

WHAT THIS SCREEN DOES

Study performance patterns rather than isolated trades.

HOW TO USE IT

- 01 Open Analytics.
- 02 Use the available account/time filters to define the review scope.
- 03 Read the summary metrics before interpreting the charts.
- 04 Use the chart distributions and performance figures to identify patterns worth investigating in the Journal.
- 05 Record actionable findings in your review process rather than changing rules based on one chart alone.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

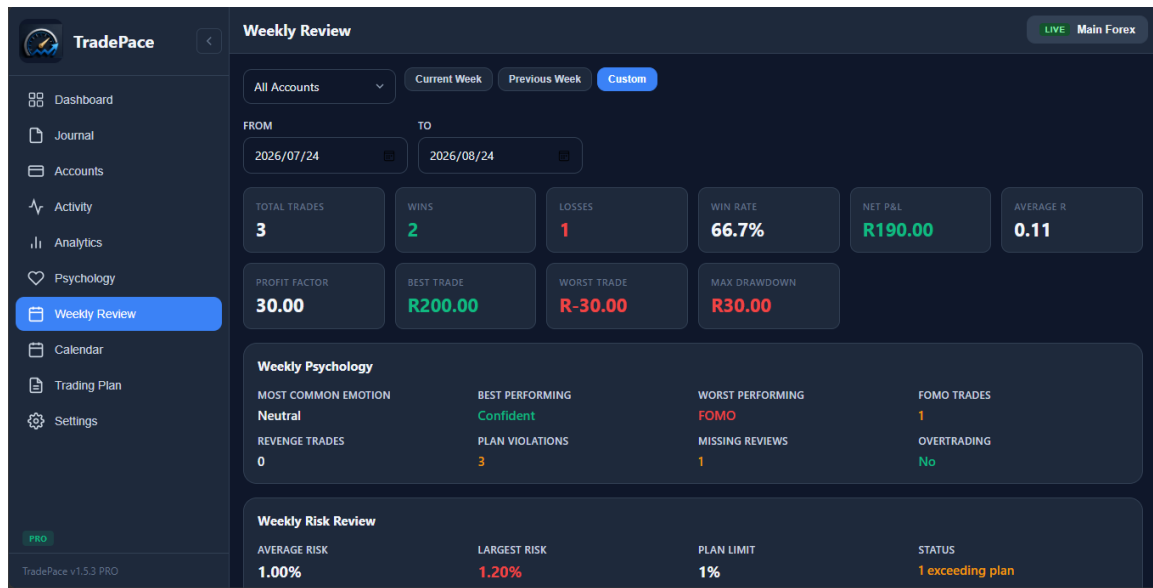

NEXT STEP

Analytics is PRO-only in the supplied Free package.

16 • WEEKLY REVIEW

Weekly Review

The supplied Pro Weekly Review screen combines weekly performance and review information.

Pro Weekly Review.PNG

WHAT THIS SCREEN DOES

Turn the week's data into a repeatable review routine.

HOW TO USE IT

- 01 Open Weekly Review.
- 02 Choose the account/time context you want to review.
- 03 Read the weekly summary first.
- 04 Review the psychology and performance sections together.
- 05 Write down the most useful process change for the next trading period.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

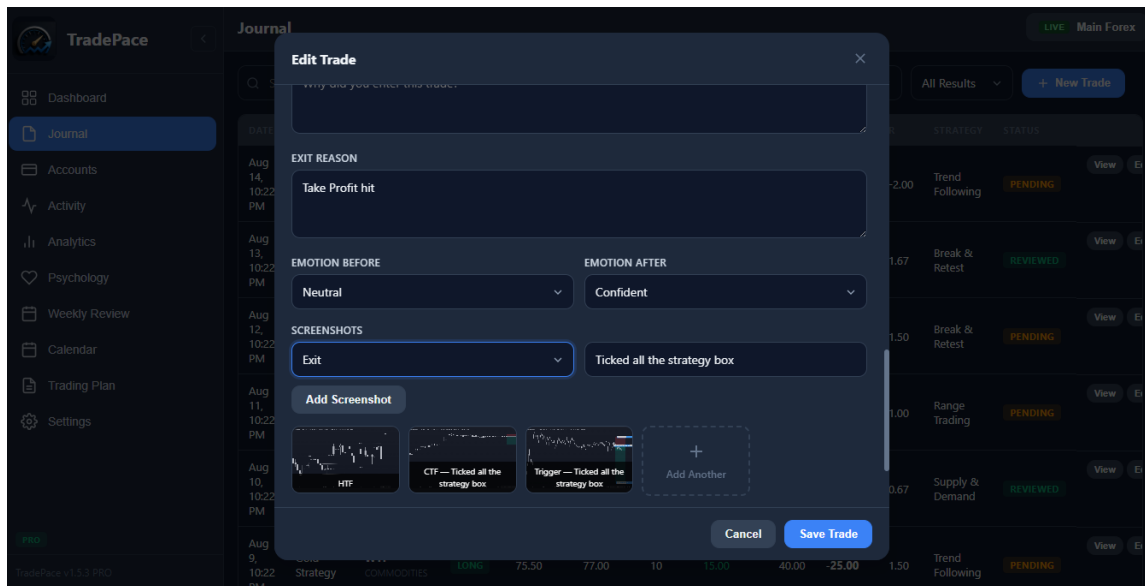

NEXT STEP

Weekly Review is PRO-only in the supplied Free package.

17 • SCREENSHOTS / EVIDENCE

Screenshots / evidence

The supplied Pro screenshot shows the evidence-entry workflow attached to a trade.

Screenshots.PNG

WHAT THIS SCREEN DOES

Add visual trade evidence without Free-tier rewarded-ad gating.

HOW TO USE IT

- 01** Open the Screenshots/evidence area for the relevant trade.
- 02** Use the visible controls to select or add evidence.
- 03** Review the attached evidence before saving the trade record.
- 04** Use screenshots to preserve visual context that cannot be captured by numeric fields alone.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

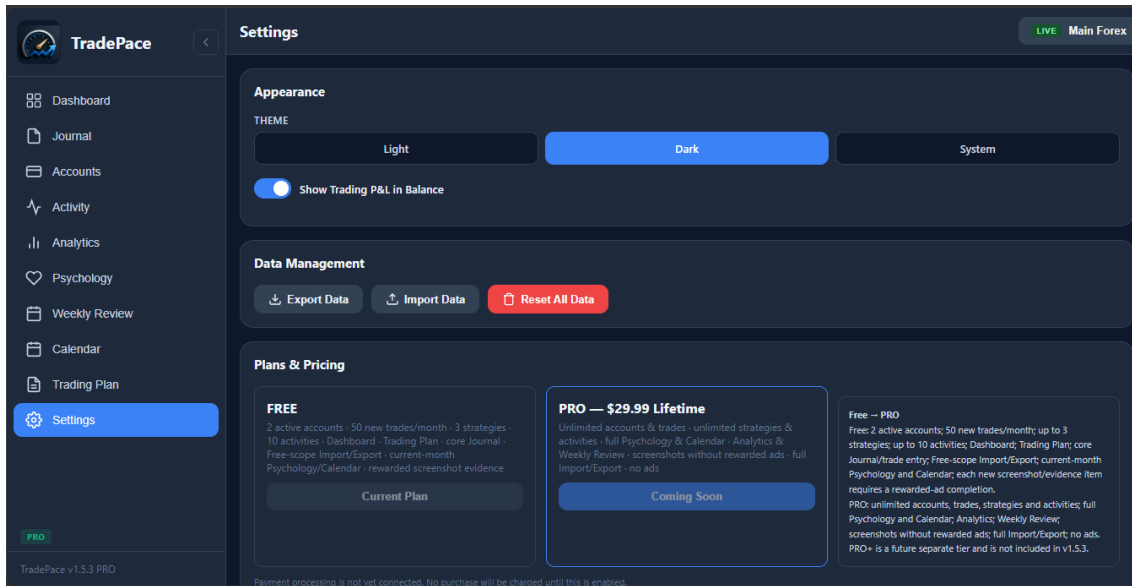

NEXT STEP

PRO includes screenshots without the Free rewarded-ad gating.

18 • IMPORT / EXPORT

Import / Export

The supplied Pro Settings screen shows Data Management controls including Export Data and Import Data.

Import Export.PNG

WHAT THIS SCREEN DOES

Move or back up the complete Pro data set.

HOW TO USE IT

- 01** Open Settings and locate Data Management.
- 02** Export the application data when you want a backup or migration copy.
- 03** Import the intended data set when restoring or moving your journal.
- 04** Review the result after import to confirm the expected accounts, trades and related data are present.
- 05** Use Reset All Data only when you intentionally want to clear stored data.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

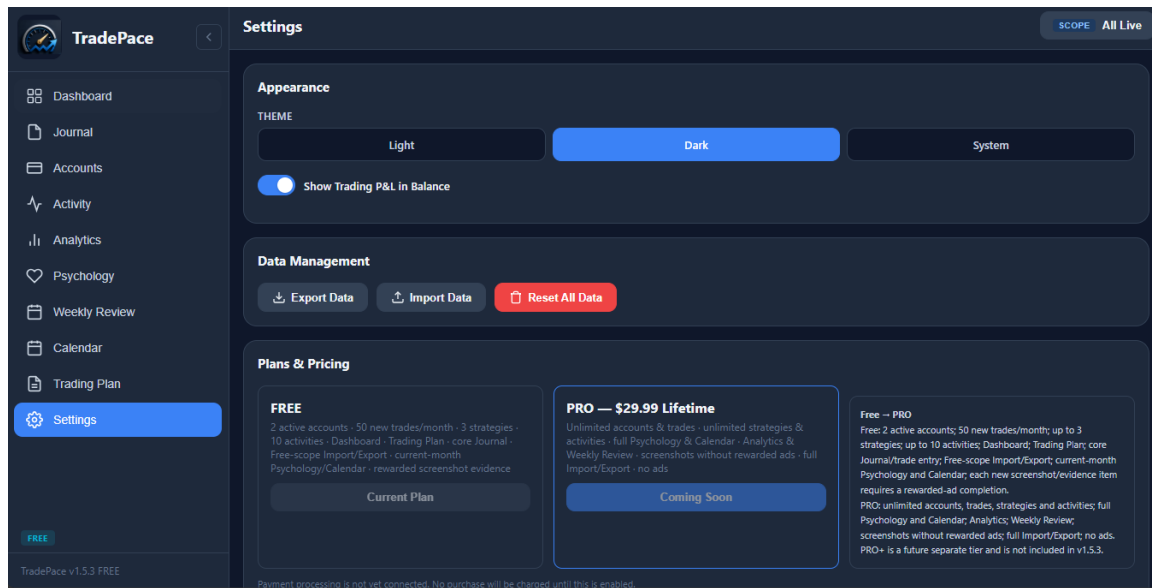

NEXT STEP

PRO includes full Import/Export.

19 • SETTINGS

Settings

The supplied Pro Settings screen brings appearance, data management and plan information together.

Settings screen.PNG

WHAT THIS SCREEN DOES

Configure the application and manage its data.

HOW TO USE IT

- 01** Open Settings from the navigation.
- 02** Review the appearance controls and the selected theme.
- 03** Use Data Management for export/import actions.
- 04** Use the Plans & Pricing area to confirm the Pro product context.
- 05** Leave Settings after verifying the change you intended to make.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

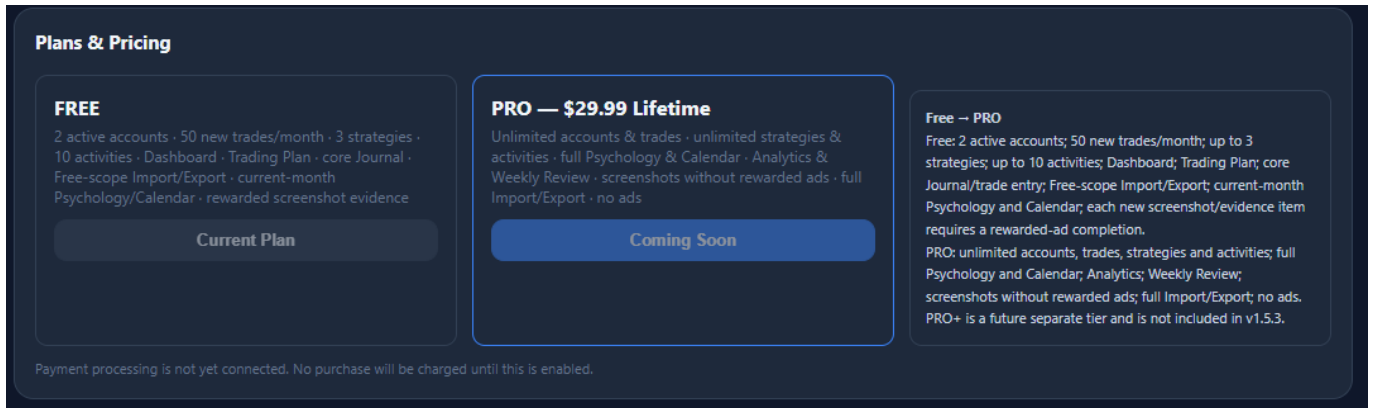

NEXT STEP

The Pro package is standalone; Lemon Squeezy handles checkout and file delivery.

20 • PRO PLAN / PRICING

PRO plan / pricing

The supplied Pro pricing screen shows the Free and PRO plans and the \$29.99 Lifetime positioning.

Plans & Pricing

FREE

2 active accounts · 50 new trades/month · 3 strategies · 10 activities · Dashboard · Trading Plan · core Journal · Free-scope Import/Export · current-month Psychology/Calendar · rewarded screenshot evidence

Current Plan

PRO — \$29.99 Lifetime

Unlimited accounts & trades · unlimited strategies & activities · full Psychology & Calendar · Analytics & Weekly Review · screenshots without rewarded ads · full Import/Export · no ads

Coming Soon

Free → PRO

Free: 2 active accounts; 50 new trades/month; up to 3 strategies; up to 10 activities; Dashboard; Trading Plan; core Journal/trade entry; Free-scope Import/Export; current-month Psychology and Calendar; each new screenshot/evidence item requires a rewarded-ad completion.

PRO: unlimited accounts, trades, strategies and activities; full Psychology and Calendar; Analytics; Weekly Review; screenshots without rewarded ads; full Import/Export; no ads. PRO+ is a future separate tier and is not included in v1.5.3.

Payment processing is not yet connected. No purchase will be charged until this is enabled.

PRO.PNG

WHAT THIS SCREEN DOES

Understand what the delivered Pro package represents.

HOW TO USE IT

- 01 Review the PRO feature list before purchasing.
- 02 Use the PRO purchase action when the Lemon Squeezy checkout is live.
- 03 After purchase, use the delivered Pro package and its Pro guide.
- 04 Keep the Pro package separate from the Free installation so the intended tier is clear.

BEFORE YOU LEAVE

Confirm that the information you intended to create or review is visible and that any save/import action completed as expected.

NEXT STEP

Price shown in the supplied product materials: \$29.99 Lifetime.

PRO — QUICK REFERENCE

Keep this guide with your TradePace installation

- Unlimited active accounts, trades, strategies and activities.
- Full Psychology history and analysis.
- Full Calendar history and navigation.
- Analytics and Weekly Review.
- Screenshots without Free-tier rewarded-ad gating.
- Full Import/Export.
- Standalone Pro distribution delivered through Lemon Squeezy; the app itself does not implement Lemon Squeezy API authentication.
